

ACCOMMODATION GUIDE

IN THIS GUIDE YOU WILL FIND ALL OF OUR RECOMMENDED PROPERTIES IN THE NETHERLANDS, PORTUGAL AND AUSTRIA

We do not provide accommodations for the private one-on-one ceremonies, these are held in your temporary accommodation that you choose and book yourself.

We did provide a ceremony space in the past but we found this was not ideal as it required participants to move locations after the ceremony, when they might still be feeling sensitive from the effects of Psilocybin.

Therefore, we come to the participant's location, where we hold the sessions in the participant's space, so that they can stay in their space and relax after their ceremony in order to rest and reflect peacefully and continue to benefit from the experience without the disruption of moving through the city or town.

Please note that holiday rentals can change, building works may take place etc, which we could be unaware of and owners can also make adaptations to the property.

It is important that you check the reviews - especially the more recent ones - and ensure the property continues to be recommended by recent guests, and that it is quiet and suitable for your experience along with it being somewhere you feel comfortable.

We also advise checking the house rules of any rental property to determine if they have any specific policies targeted towards visitors or any substances.

Ensure that the bathroom is situated on the identical floor as the bedroom or living area where the ceremony is scheduled to occur.

We highly recommend to book an Airbnb or Guesthouse for this experience, if you choose to do this in a hotel, you will assume all responsibility in case any problems arise in a hotel setting.

Please arrive at your accommodation the night before your ceremony or earlier. This ensures that you start the day relaxed, which is important for the right set and setting for your experience.
